

## Contents

<b>Cloud-based learning environment .....</b>	<b>7</b>
<i>N. P. Franchuk.</i> Modern educational environment.....	7
<i>A. V. Damniskaya.</i> Cloud based platforms, tools and services .....	12
<i>L. I. Bilousova, N. V. Zhytienova.</i> Cloud services as an effective visualization tool.....	25
<i>M. M. Filonenko, Kh. V. Podkovko.</i> E-portfolio in postgraduate education system of teachers of higher medical (pharmaceutical) educational institutions: psychological and pedagogical aspect.....	31
<i>M. Y. Kademiya, V. M. Kobysia.</i> Implementation SMART-learning tools of modern network technologies.....	36
<i>Yu. V. Hrytsuk, O. V. Hrytsuk.</i> Organization of testing students with Office 365 .....	41
<i>A. P. Kobysia.</i> The use cloud technology of the design work of students .....	46
<i>N. M. Kiyanovska.</i> Free and open source cloud technology based on the type Software as a Service .....	52
<i>A. V. Vorozhbyt.</i> Creation of multimedia content of the cloud-based learning environment in Technical Lyceum .....	59
<b>Cloud technologies of open education .....</b>	<b>64</b>
<i>N. V. Soroko.</i> The problem of designing a digital learning ecosystem for massive online courses (Estonian experience).....	64
<i>L. P. Ostapenko, O. K. Solovyova.</i> Massive open online courses in the system of training of future teachers including practice of Media education .....	71
<b>Cloud technologies of mobile learning .....</b>	<b>76</b>
<i>K. V. Leshko, L. L. Rykova.</i> Augmented reality as a tool in creative development of future education professionals.....	76
<i>T. I. Hranovska, M. V. Lapyeva.</i> Mobile technologies as a tools to support learning at the school course of inorganic chemistry .....	82
<i>O. O. Karpova.</i> Peculiarities of implementation of mobile learning of foreign languages at the economic university .....	93
<i>Yu. O. Dekhtiarova.</i> Interactive tool SMART kapp in modern education ...	100
<b>Cloud-based learning management systems.....</b>	<b>104</b>
<i>A. O. Kucheriavyi.</i> Technological bases of projecting distance learning courses .....	104
<i>O. M. Lapuzina, L. M. Lisachuk.</i> Creation of distance courses in natural sciences for international students of preparatory phase of training in Ukrainian, Russian, English languages.....	109
<i>M. M. Nazar.</i> Components of efficient distance learning course .....	114

<i>M. M. Nazar, D. S. Meshcheriakov.</i> On the issue of developing and applying the model of the participant of Internet training .....	129
<b>Cloud technologies for informatics learning.....</b>	<b>135</b>
<i>L. E. Grison, D. G. Sherstyuk.</i> Computer models for interdisciplinary links support in high school.....	135
<i>L. S. Kolgatina, N. S. Ponomareva.</i> The specificity of students' independent work in the disciplines of natural-mathematical cycle in terms of blended learning .....	140
<i>M. V. Popel, S. O. Semerikov, S. V. Shokaliuk.</i> Use of environment CoCalc and commercial systems and computer mathematics .....	152
<i>O. F. Diachenko.</i> The didactic potential of cloud technologies in the study of computing disciplines by bachelors in system analysis.....	159
<i>N. O. Ponomarova.</i> Actual problems of professional orientation of pupils on IT-specialty .....	163
<i>M. V. Rassoyvyska, A. M. Striuk.</i> Using a cloud-based CAD systems into professional and practical training of future mechanical engineers.....	168
<i>M. M. Sheina.</i> The use of SMART-boards the lessons in elementary school.....	175
<i>T. B. Shustakova.</i> Formation of cognitive independence of students using Google services.....	179
<b>Cloud technologies for mathematics learning .....</b>	<b>187</b>
<i>O. M. Potapova.</i> The use of cloud-based computing in the research activities of future engineers while learning higher mathematics.....	187
<i>M. V. Popel, D. Ye. Bobyliev.</i> Differentiation of student learning to complex analysis using CoCalc .....	192
<i>V. M. Andriivska.</i> Theoretical-methodological foundation of technology advanced elementary mathematics education .....	201
<i>T. G. Kramarenko.</i> Training of teacher to school students collaborate with educational resources of cloud based projects .....	206
<b>Cloud technologies for physics learning.....</b>	<b>211</b>
<i>M. V. Khomutenko.</i> Educational physical experiment as a research tool in the cloud-oriented learning environment .....	211
<b>Our authors .....</b>	<b>223</b>
<b>Index.....</b>	<b>229</b>
